Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 8-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Dittmann et al..

Referring to claim 8, Dittmann et al. disclose an apparatus for taking a sample, comprising:

- (a) an apparatus frame designed to be held in at least one hand (figure 1),
- (b) a sample media adapter (“17” in figure 2; “22” in figure 3) connected to the apparatus frame and configured to hold a sample media with a securing means (col. 12, lines 12-24), and
- (c) a trigger mechanism (“12” in figure 1) connected to the sample media adapter and adjacent the frame to operate the securing means (col. 26, lines 13-16).

Art Unit: 2863

As to claim 9, Dittmann et al. disclose an apparatus for taking a sample, further comprising a computer configured to display, receive, process, and store sampled data (col. 18, lines 33-51; figure 1).

Claims 10-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Allowable Subject Matter

Claims 1-7 and 10-24 are allowed.

In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to add a means for identifying spatial coordinates of a sample using a position tracking system like a GPS unit, a personal digital assistant (PDA), and a wearable computer including a camera, video, microphone, and a headset to determine the sample's spatial location, ID to the device described in Dittmann et al. reference for capturing, processing, and integrating sampling-related data with the spatial coordinates of the sample.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Toan M Le whose telephone number is (571) 272-2276. The examiner can normally be reached on Monday through Friday from 9:00 A.M. to 5:30 P.M..

Art Unit: 2863

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Barlow can be reached on (571) 272-2269. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
